How to Outbluff a **VICIOUS DOG**

at night!

... as recommended by
Lt. Comdr. Willy Necker,
Wheeling, Ill.—noted dog
trainer and judge at dog
shows...and wartime head
of U. S. Coast Guard War
Dog Training.

1 The fact that 999 dogs out of a thousand are friendly, safe and lovable doesn't alter the fact that occasionally—through mistreatment, neglect or disease—a dog may turn vicious. Such animals are dangerous. Especially at night! If cornered—

2 Outdoors, at night, turn on your "Eveready" flashlight! Shine it directly at the dog's eyes, to blind and perhaps bewilder him. He may leap at the light, however; so don't hold it in front of you. Hold it at arm's length to the side. Most important...

3 Keep still. Don't move. Don't run—it's instinctive with most animals to attack anything that runs away or moves aggressively. If the dog refrains from attacking for a few seconds, you have probably won—he is apt to growl at the light, then slink off, outbluffed.

4 For bright light, white light, effective light—insist on "Eveready" batteries. For they have no equals—that's why they're the world's largest-selling flashlight batteries. Yet their extra light, extra life, cost you *nothing* extra!
